

Timp Woodturners Association  
Meeting Minutes  
14 April 2010

The meeting was convened by Kirk DeHeer at 7:00 pm with 44 persons present.

Kirk announced that the sound system purchase authorized by member vote at the 13 January 2010 meeting has been completed thanks to the considerable efforts of Vern Olsen. The system was used successfully for the first time in this meeting.

Beth Denner announced that all the volunteer slots for the Utah Symposium have now been filled successfully with thanks to the willing members.

Kirk announced that the Utah Symposium date will not conflict with our club meeting schedule this year so we will have our normal monthly meeting on 12 May 2010, contrary to the last e-mail notice. Dave Anthony is arranging for a demonstrator.

A number of small cored-out bowl blanks were donated and were made available to members.

Joe Wagner provided an informative demonstration of turning wooden kitchen spatulas. The demonstration notes will be posted to the club website ([www.timpwoodturners.org](http://www.timpwoodturners.org)) in the near future.

Stuart Davey led the “show and tell” segment of the meeting. Interesting pieces were presented by John Kartchner, Leonard Cleveland, Robert Anderson, and Vladimir Schwartzman.

Robert Anderson conducted the wood exchange drawings.

The meeting adjourned at 8:30 pm.

Respectfully submitted,

Dale S. Dallon  
Secretary/Treasurer
